## Full of Life

### An Exhibit of the oil paintings of John Christensen

Opening Reception: Sunday, December 1, 2013 from 12:00 - 1:30pm

John Christensen grew-up in the city of Santa Monica and now lives in Venice. He often paints local scenarios or just the stranger, funnier, or more meaningful everyday doings of man and animal. Many of the subjects will be familiar to residents of Santa Monica and Venice.

Christensen describes his paintings as American primitive art. He is particularly interested in the world's penumbras and in-betweens and in the places where differences of all kinds meet. Some of his favorite things are road-trips, early morning coffee and just walking around. Faith, humor, wonder and the fun of discovery motivate his work.

## Izzy's Night

Admission is free, all works are for sale
